

## *Trustee Biography*

**H. Barry Robins**

Mr. Robins founded DavosPharma in 1972. He graduated with a B.Sc. in Chemical Engineering from Queen's University in Kingston, Ontario, Canada in 1964. His two sons David, and Brian also graduated Queen's in similar engineering disciplines and are co-CEOs at Davos. His grandson, Timo is a sophomore in Engineering at Queen's, and all of them are dual USA and Canadian citizens.

Davos is a tech company acting as a service provider for BIG Parma (BMS, Pfizer etc.) and Small Pharma (Biotechs). Davos people have degrees ranging from B.Sc. through PhD in Chemistry, Biology, Engineering, and Business (MBAs).

Their current projects range from Cancer, Hepatitis, Hematology, HIV, Gene Editing and biosimilar development.

DavosPharma is starting to invest in small tech start-ups especially in the Medical Device space.

Mr. Robins and his family are very active in children's not for profit groups, where at risk children are involved, similar to Kip's Bay Boys & Girls Club. They are also involved with capital campaigns and R&D projects at Queen's University.

Mr. Robins has served on the board of Kips Bay Boys & Girls Club since 2006.
